Hi.

Scene seems still to be a thing many wonder about, and try to have information about me online.

I have made this playlist on youtube, to convey a little bit of the vibe, that existed in those days.

Nowadays artists play at usergroups meetings, and with the gained popularity I also played raves aswell, using Octamed and multichannel MIDI on The Amiga.

My later project is on its own channel, and on this channel we also encourage Fair Pay In Cyberspace, and an O S with such a mindset.

I hope you enjoy.

Peace!
